Special Events

2024 sees some big titles celebrating milestone anniversaries so don't sleep on the chance to fully immerse yourself in those worlds and relive classic cinema on the silver screen!

Our Story So Far

In keeping with our anniversary celebrations, our ever-popular retrospective screenings return to spotlight titles from key years in our history. Remember these screenings are free!

Czech, Please!

Shining a light on the best and brightest of Czech cinema as we celebrate the key titles coming out of Czechia and showcase the variety and quality that is on offer.

What Will The Men Wear?

This season explores the star power of three of Hollywood's most subversive female stars of the 1930s: Greta Garbo, Marlene Dietrich and Katharine Hepburn. Notorious for sporting 'men's' clothing on and off film sets and challenging gender norms.

love is sweet, oh!

This specially curated programme is a response to thinking about on-screen representations of love in the lives of Black people and people of colour and how, for these communities this experience should be celebrated in the public space of the cinema.

Wild Flower, Flaming Star

This retrospective brings together a collection of definitive titles from Mexican actor Dolores del Río, rarely screened in the UK.

Gestures of Memory

The films selected for this programme consider the relationship between image-making and memory.

GFF After Hours
